Data Security

Whenever a company opts for outsourcing its operations like accounting, bookkeeping, payroll or taxation, a lot of sensitive data & confidential information may get shared. Security of such data is of prime importance. At AndersonBpo, we are continuously striving to improve our services and infrastructure to meet our customer's expectations. We are ISO 27001-2013 certified which is a proof that we meet the highest international (data) security standards set by the certification body.
